

Libby & OverDrive 101

Prepared by Becky Woodruff, MLIS
Teen Services Librarian

Libby vs. OverDrive

What's the Difference?

- OverDrive and Libby are both apps used for borrowing eBooks (and other digital content) from your library.
- Libby is the newest version, and OverDrive will (eventually) be phased out of use, though for now it's still available.
- Libby is a bit more user-friendly and enables users to add multiple cards on the same account.

For instance, if you have a Delaware County District Library (DCDL) card and a Columbus Metropolitan Library (CML) card, you can save both in Libby and have access to both DCDL's Ohio Digital Library (ODL) **AND** CML's Digital Downloads Collaboration (DDC).

Availability

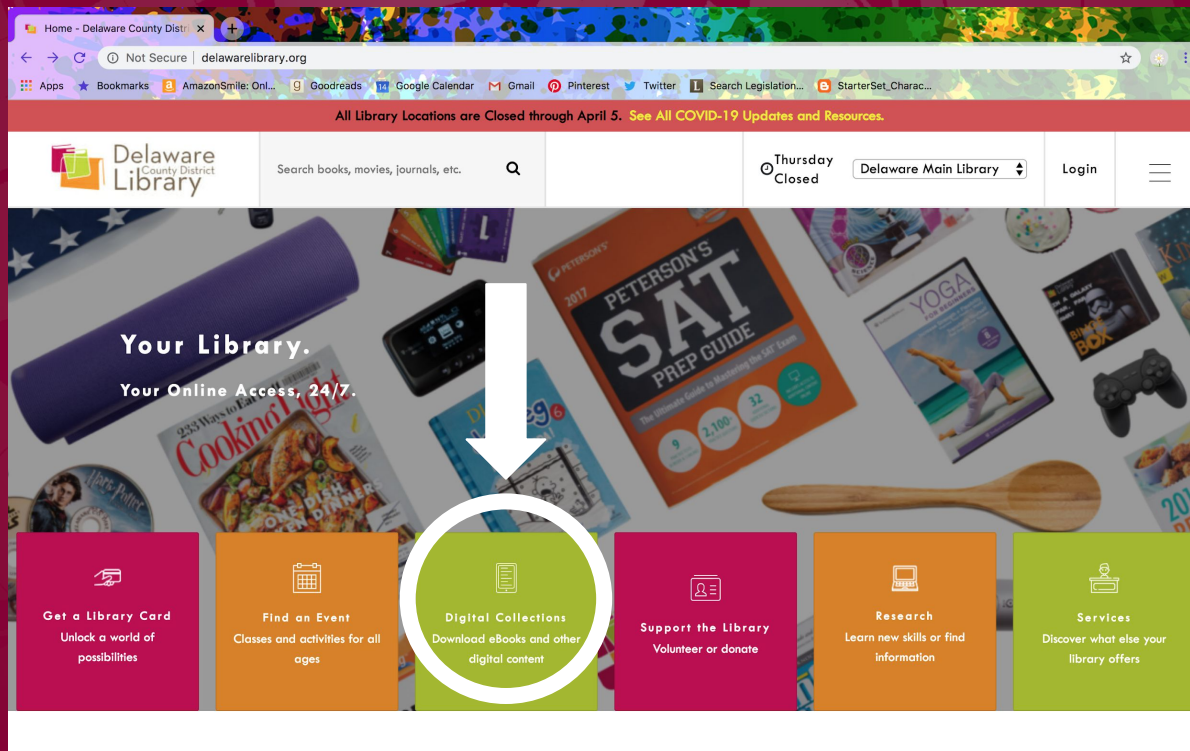

Why is there a wait list for some titles?

- Due to copyright law and publishing practices, digital borrowing (usually, but not always) works just like physical borrowing: the library owns a certain number of copies of a title, so if all ODL copies are checked out, you might have to join a wait list for that title.
- Different library systems have different digital collections, which means a title that's checked out in the Digital Downloads Collaboration (CML's collection) might be available in the Ohio Digital Library (DCDL's collection)-- and vice versa!
- Now, there are some exceptions to the rule. Lucky Day copies, for example, are popular titles that are available for a 7-day checkout with no renewals, similar to DCDL's Boomerangs.
